

1) After login Google Cloud Console, from the top menu, click and then select the project:

2) After selecting the project, click “Cloud Storage” in the quick access.

3) In the Cloud Storage page, click the bucket “discountmate-item-image”. (The other bucket is for database backup)

4) In the bucket page, click **UPLOAD FILES** to select files from your computer. Or simply drag your files to that screen. The upload will start.

The screenshot shows the Google Cloud Storage interface. On the left, the 'Cloud Storage' menu is visible with 'Buckets' selected. The main area displays the 'Bucket details' for 'discountmate-item-image'. The bucket's location is 'australia-southeast2 (Melbourne)', storage class is 'Standard', public access is 'Public to internet', and protection is 'None'. Below this, a tabbed interface shows 'OBJECTS' selected. A red box highlights the 'UPLOAD FILES' button. Below the button, there is a table of objects in the bucket:
